

Legal Abortion Persuasive Essay

A legal abortion is not just an ethical right, it is a moral obligation. Abortion is one of the most controversial and emotional topics in today's society. Despite being such a sensitive issue, it has been part of human history for centuries and continues to be debated today. It is my belief that all women should have the right to choose whether they want to keep or terminate a pregnancy. In this essay, I will discuss the ethical and moral implications of abortion, as well as its potential healthcare benefits.

To begin with, abortion is an ethical imperative that falls within the realm of individual autonomy. Autonomy is defined as "the capability for individuals to make decisions without outside interference". This concept is widely accepted in modern societies, and abortion should be no exception. Women must have the right to decide what happens to their own bodies and whether they wish to keep or terminate a pregnancy. It is important that women are not forced into any decision regarding their reproductive health against their will.

Furthermore, legal abortion provides a host of potential healthcare benefits. By providing legal abortions, women can access safe medical procedures and reduce the likelihood of seeking out dangerous alternatives such as self-induced abortion or back-alley abortions. Legal abortion also allows women to make informed decisions about their own health care, enabling them to take proactive steps towards preventing unplanned pregnancies. It is an invaluable tool for providing quality health care and advancing women's reproductive rights.

In conclusion, legal abortion is both an ethical right and a moral obligation. Women should be given the autonomy to make decisions about their own bodies, free from outside interference. Additionally, legal abortion can provide access to safe medical procedures as well as empower women to take proactive steps towards preventing unplanned pregnancies. It is an

invaluable tool for providing quality health care and advancing women's reproductive rights.

Legal abortion should remain a viable option for all women.
